

See how GlobalMeet and Socialive can work for you.

GlobalMeet® Webcast broadcasts high quality interactive live and on-demand virtual events securely. Now with Socialive, we are helping clients create and deliver more dynamic video content reaching the widest audience possible.

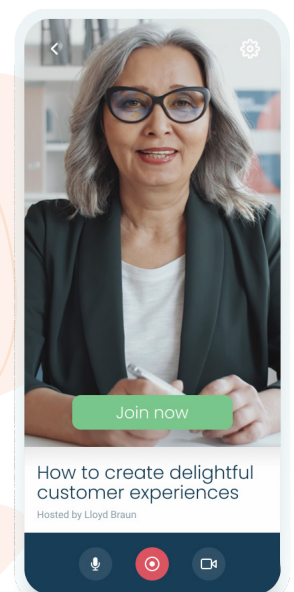

We empower you to produce and broadcast winning videos at a fraction of the cost. With us, you can create awesome looking virtual events boosting what matters – audience engagement extending your ROI at every stage.

Together, GlobalMeet Webcast and Socialive create and deliver amazing webcasts!

Experience and Technology Matters

- 20+ years delivering high profile events
- Going live can be hard, even harder when you have to make everything look good and run smoothly. We make content creation easy and fun again
- Our consultative event experts are here to lighten the load. We take on the pressure so you can focus on making memorable and impactful connections with your attendees
- Spend less time worried about the back-end and more time focused on creating the most compelling events imaginable
- Enjoy a consistent technology experience for events of all sizes and types – small events, big events, live events, on-demand events, and all the snackable marketing content in-between

The GlobalMeet Webcast with Socialive experience

Pre-Event

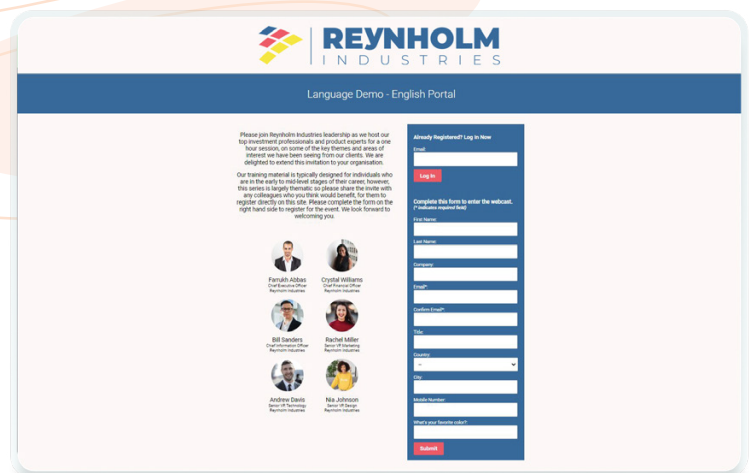

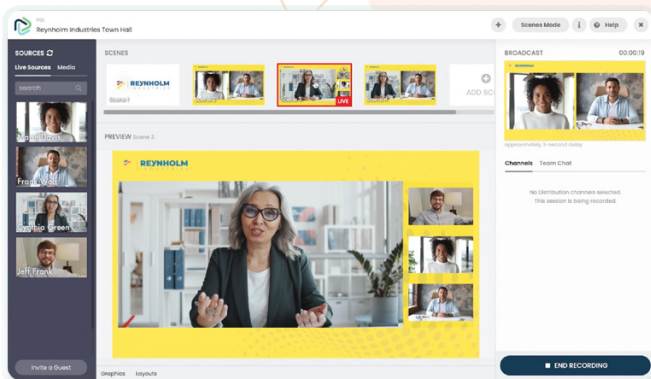

- 100% browser-based access with no downloads or plugins
- Fully customizable registration experience
- Web Portals for managing multi-day, multi-track events and associated content
- Graphics and brand overlays at your fingertips and the ability to pre-set your entire production for peace of mind
- The Virtual green room makes it easy and effortless for presenters to experience the power of the live studio

During Event

- Simplified experience for producers and guests
- Visually stunning and professional look and feel, keeping your audience engaged
- HD video with crystal clear audio empowering presenters to deliver their message with complete confidence
- Real-time audience engagement and insight with Q+A, polls, surveys and audience chat
- Highly secure, scalable delivery of an elevated video experience with a capacity of 70K plus

Post-Event

- HD isolated recordings
- Repurpose event highlight clips with powerful calls to action in post-event marketing projects with easy editing tools
- Robust and insightful analytics measuring content consumption for a deeper level of engagement
